Good morning mr. Duckworth,

There is a great difference between the two, to begin, Special Event are processed by Bureau of Street Services, while Valet Services requires an application with Department of Transportation, as well as with the Los Angeles Police Department.

I have attached both the Special Event Ordinance, and the Valet Ordinance for your information, which will answer most, if not all of your questions.

Please let me know if you need anything else,

Sincerely,

Is there a difference in permitting for a twice per week special event service and a on-going valet service?

I'm the Executive Director of the Melrose BID.
